

Project SeLiD - Online Meeting 18. February 2021

Top 2 - Project progress TU Chemnitz

- The SeLiD project is now on the homepage of the professorship "Applied Gerontopsychology and Cognition" (Prof. Jahn):

<https://www.tu-chemnitz.de/hsw/psychologie/professuren/geropsy/forschung.html>

Link from EFOS homepage

- Carrying out further surveys, in particular as an interview by telephone; Through these personal conversations, valuable tips from the elderly on the use of digital technologies could be received;

There are now 80 questionnaires recorded, and an overall evaluation is currently in progress

- Activities with lecture and Powerpoint presentation for the German Seniors' Day in Berlin on October 1st, 2020; now the brochure and video appear

- Video meeting of the SeLiD project group with discussion about further implementation of the project content under corona restrictions

Subjects:

o Testing of video conferences with zoom for senior college events

o Zoom guide developed for new users with possibility; Try out zoom video conferencing as a test

o Information on offers in media libraries, personal experiences of the SeLiD project participants on the use of media libraries

o Examination of possibilities for zoom video conferences in the working groups "GTT - GenerationsTeam Technology" and "Political Education" with the participation of other interested seniors / older people for a joint discussion on selected contributions from media libraries (first view them individually and then discuss them together)

- Inquiries to the TV broadcaster MDR for the transmission of lectures without an audience on MDR or ARD, especially as in CZ Kanal 3 for older people, unfortunately no airtime on TV, only digital

- When planning finances, build up reserves from management costs to finance our participation in Dresden without mobilities
